

Our business profile

For more than 24 years, Témoin Production has been recognized as a leader in audio-visual and multimedia production for business and institutional communication needs.

Founded in 1986 by siblings Dominique and Josée Le Blanc, the company has a dozen permanent employees and works with a network of over thirty freelancers experienced in all the component sectors of the field.

Témoin Production offers a one-stop shop for a vast array of communication expertise including conception and design, direction, post-production and broadcasting in both analog and digital media such as video, special events, television, webcasting, CDROM, DVD, Internet and intranet.

Owner of all its production equipment, our company uses professional cameras Betacam SP and HD (high definition), complete sound production hardware and software, lighting, a recording studio for voice-overs, three numeric editing rooms, two stations for computer graphics and 3D animation and a DVD authoring station.

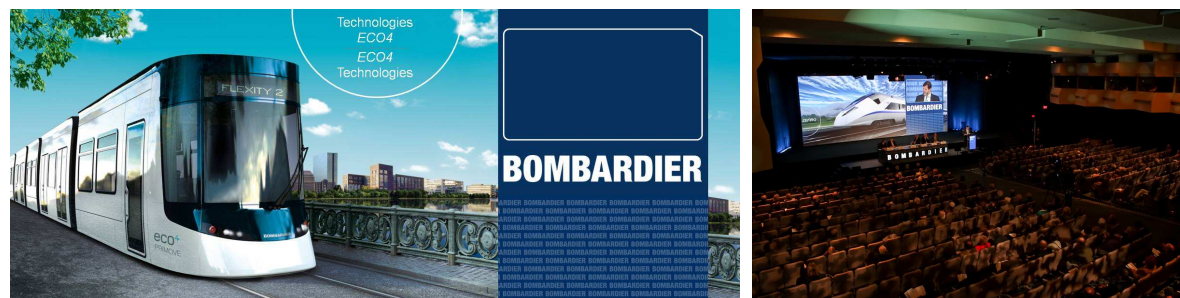

In recent years, Témoin Production has also established itself as a pioneer in live webcasting. That's why every year more than 30 companies contract for our unique services.

Our team manages hundreds of projects yearly – in both French and English - covering a wide range of solutions from simple PowerPoint presentations or websites to the production of corporate videos and major special events with broadcasting on giant screen, television or on the web. Our expertise in video production for training, information, internal communication or promotion has been valued by numerous prestigious clients.

Our **expertise** and **creativity** are now sought after by companies of all sizes, all backgrounds, and are recognized by such prestigious organizations as Cirque du Soleil, the Caisse de depot et placement du Quebec, Danone Canada, Molson and Bombardier. You will find in these pages some examples of our many accomplishments. These experiences can be finally put to use in your project.
